***Scribouillis* is a 40 minutes wordless puppetry show for all audiences starting from 3 years old.**

Synopsis :

Mimi, a playful and curious little girl, is drawing. Suddenly her drawing comes to life! It's a Scribouillis, an impulsive, greedy creature that metamorphoses before our very eyes. The child and her creature befriend each other and invent games, but when the Scribouillis is about to eat Mimi's comforter it's not so much fun anymore... If it's important to learn to share, it's also important to learn to recognise and express one's limits.

Scribouillis is a human-sized puppet show with few words, suitable for all audiences. Following the show, a mediation session is offered on the issues of consent for children, inviting them to speak up and draw their monster.
